

OVERHEAD: POLLUTION P.I.—ANYWHERE USA COLOR-CODED MAP KEY

ANYWHERE USA

Copper Mountain - Top of a mountainous region to the north that has been extensively mined for copper and iron from Boomtown, up Copper Creek, and along its tributaries.

Stampede Valley - Major cattle ranching district between Cattle Creek and the headwaters of Broad River (due to economic difficulties, range land is overgrazed in some valleys).

Green Acres - Large farming area upriver from Stickville, between Flat Creek and Muddy Creek.

Auto City - Old established city where the majority of the population relies heavily on the auto/steel industry which is the economic base for the city.

Mega City - A new, rapidly growing city with major construction constantly going on, including a wide variety of industry and business.

Jonesboro - Oldest town in state with little or no growth and a small population.

Key

Water Type (label as excellent, good, fair, or poor)	Color	pH (color <u>in</u> the river)	Sediment Load (color <u>above</u> the river)	Coliform Bacteria (color <u>below</u> the river)
1. Excellent water quality	Blue	7.1-7.5	0-5 times higher	Very Low
2. Good water quality	Green	6.6-7.0	10 times higher	Acceptable
3. Fair water quality	Yellow	6.1-6.5	100 times higher	Medium
4. Poor water quality	Red	5.5-6.0	500 times higher	High
